

Service Instructions

WBUB-A Bubbler - Setting the flow

For support please phone our technical support team on 0800 787 342

Step one

Install the bubbler on the fountain, unless it is fitted with vandal proof shrouds; in which case, set the flow before securing it.

Step two

Use a screwdriver in the slot on the side of the bubbler, ringed below, to turn the flow up or down.

Step three

If you need to reduce the flow further, close the JG valve (below) slightly .
